Dec	Friday	12/27/19	3:40 PM	Weekly	
Dec	Monday	12/30/19	9:20 AM	Weekly	

EAS test broadcast schedule

FCC now requires broadcasters to notify the FCC if their station broadcasts a false EAS alert and has enacted a requirement to do so within 24 hours of becoming aware of the incident.

State monthly tests (RMT) are required and must be re-transmitted within 60 minutes of the time they are received. Weekly local tests (RWT) are also required to be run

An RWT should be sent if it is not possible to retransmit the RMT. If RMT was not retransmitted, explain this in your log

At a minimum, broadcasters and cable operators are encouraged to program EAS units to receive and respond to the following event codes.

- Civil Emergency Message CEM
- Child Abduction Emergency CAE
